## INTRODUCTION

***Job Applicants and Openings for Iowa Workforce Development (IWD) Regions*** provides a quarterly overview of labor supply and demand from the 16 Iowa Workforce Development (IWD) Regions. The most recent three months of data\* recorded by the IWD Center offices are combined to produce the tables for this report. Although Center activity does not reflect the total labor market in Iowa, data can help to determine labor shortages, surpluses, or to prompt training needs.

\* **NOTE:** After switching to a new data collection system (IWORKS) last summer, some of the measures are not directly comparable to previous quarters of this publication. Applicants can now list any number of occupations compared to the old system, which only allowed one primary occupation. As a result, applicants are counted for each occupation that they listed, but are only counted *once* for the total of each occupational group. The grand total is represented by an unduplicated count of applicants within the state/region.

Starting with this report, Regions 3 and 4 are now merged into a single IWD Region called simply “3” or “3-4.” Local officials petitioned the state workforce board and the governor for this change to operate more efficiently; finding has been reduced over time and many functions were already being shared. As of July 1, 2006, data will also be merged.

This site will be updated roughly in the middle of the following months (possibly earlier):

Quarter 1	May
Quarter 2	August
Quarter 3	November
Quarter 4	February

**IOWA WORKFORCE DEVELOPMENT REGION 12**

O*Net Code Title	Available Applicants*	Available Openings*	Applicant/Opening Ratio**
------------------	-----------------------	---------------------	---------------------------

**Notes**

\* Includes applicants who were registered with Iowa Workforce Development and employer openings available during the stated reference period. Only occupations with a minimum of applicants or openings (3 per region *or* 25 statewide) are included in the detail listing. All occupations are added into the totals, however, so a grouping may show totals with no detail listing.

Applicants may be qualified for more than one occupation and this table counts them in each job category they list on their application. For this reason, summing the "Available Applicants" lines will normally result in a total greater than the number of applicants who have registered. However, an applicant is counted only *once* per occupational group (for the group total) and *once* per IWD Region (for the regional total). For example, an applicant classified as an Advertising and Promotions Manager (11-2011.00) and a Public Relations Manager (11-2031.00) would be counted in both occupations. However, she would only be counted *once* in the "Total for Business, Management, Financial Occupations" total and *once* in the "Grand Total."

\*\* This ratio refers to the number of applicants available for each opening during the year.

A job order can have more than one opening.
